**See Armstrong Outboard Brackets, RIB Ladder,
Boarding Ladders & Deck Plates At IBEX 2023
Booth 3-1325**

STUART, FLORIDA (USA) – The Armstrong Nautical Products booth at IBEX 2023 will feature Armstrong outboard motor brackets, the award-winning Armstrong RIB Ladder, boarding ladders and deck plates.

Armstrong focuses heavily on research and development in the process of creating products to assure compatibility with the changing needs of the marine industry. All new products undergo thousands of hours of testing to make sure they stand up to the challenges of the harsh marine environment.

Armstrong positive flotation outboard motor brackets, for more than 30 years the choice of leading boat builders (including Formula and Regulator, shown above), optimize the performance of today's powerful outboards for lower fuel consumption, a drier ride and better handling – even under the most demanding conditions.

Whether backing down on a big fish in open water, loading up your boat for a weekend dive trip or just holding your own in a following sea, Armstrong brackets are engineered to improve performance, usability, safety and seaworthiness.

The Armstrong team has produced a video highlighting the features and performance benefits of Armstrong outboard brackets. Watch it here: <https://youtu.be/4HhBWGR2I7U>.

Armstrong RIB Ladder, Boarding Ladders & Deck Plates

Winner of a DAME (Design Award METS) in the Life Saving and Safety Equipment category, the Armstrong RIB Ladder makes it easy and safe to board any Hypalon, PVC or polyurethane RIB.

The RIB Ladder maintains an easy-to-climb outward angle, supports over 400 pounds (182+ kg) and mounts on the RIB surface, so there are no holes in the pontoons. Rubber stand-offs help protect the surface of the mother ship. The marine grade stainless steel, telescoping ladder folds compactly for storage. Soft mounting hardware, also sold separately, allows for multiple mounting points on a RIB.

Armstrong Deck Plates are unique in the marine industry - NO trim ring. CE Certified to be placed anywhere above the waterline on any vessel.

For more information about Armstrong outboard motor brackets, RIB Ladder, boarding ladders, deck plates and other Armstrong Nautical products, visit booth 3-1325 at IBEX 2023 or www.armstrongnautical.com , or call 1+772.286.7204.
