## **Miami 2025 Preview: New ACR GlobalFix™ V5 AIS EPIRB with Return Link Service and Mobile App at Booth MB3105**

GUILFORD, CONNECTICUT – Represented by Ocean Marketing, ACR Electronics will feature the new GlobalFix™ V5 AIS EPIRB with Return Link Service and Mobile App in Electronics Pavilion booth MB3105 in the Miami Beach Convention Center at the Discover Boating™ Miami International Show® next week.

The ACR GlobalFix V5 AIS Emergency Position-Indicating Radio Beacon is an innovative EPIRB with a unique feature set. The addition of an AIS alert provides the easiest and quickest path to rescue while the included Return Link Service (RLS) functionality provides a welcome sense of security by providing direct to beacon confirmation that your distress message has been received. Adding Near Field Communication (NFC) to the mix allows for smartphone connectivity and access to data and product interaction that has never before been available. This advanced feature set makes the GlobalFix V5 perfect for coastal cruising, working offshore and crossing oceans.

For more information, visit booth MB3105 in the Miami Beach Convention Center, email Ocean Marketing [info@oceanmark.com](mailto:info@oceanmark.com), or in the US call 1+800.343.8294.
