**New TACO Marine® Semi-Rigid
SuproFlex Rub Rail With Overlay Vinyl Insert**

Best-selling TACO Marine® SuproFlex Rub Rail is now available with a semi-rigid back and an attractive overlay vinyl insert.

Co-extruded SuproFlex Semi-Rigid Rub Rail features shock-absorbing channels for higher impact resistance and requires less heat during installation when compared to other semi-rigid or rigid profiles.

The flexible, coil-able design, available in medium and small, pairs exclusively with the Overlay Vinyl Insert, sold separately, that provides enhanced protection from impact and a unique look that compliments a variety of boat types, including bass, freshwater and saltwater bay boats.

The profile and insert color can be customized. For more information, contact your TACO Marine customer service representative, visit <https://tacomarine.com>, or call (305) 652-8566.

TACO Marine®, a division of TACO Metals®, LLC, designs, manufactures, and distributes a wide range of products, including rub rail, sport fishing and outrigger systems, boat shade, canvas and

tower components, helm chairs and pedestals, and specialty hardware. TACO Metals, LLC is a subsidiary of Patrick Industries (NASDAQ: PATK), a leading component solutions provider for the RV, marine and manufactured housing industries.
