IBEX PREVIEW: New TACO Marine® Products Booth 3-1629, October 1-3

The TACO Marine® booth (3-1629) at IBEX 2024 will feature a wide range of new products, including the Innovation Award-winning Open Water Outrigger Poles, Skyway Sport Chair, Grand Slam 300 Outrigger Mount and Grand Slam 860 Electric VHF Antenna Mount.

Miami Innovation Award Winner – New Open Water Outrigger Poles

Unlike other internally rigged poles on the market that are fixed or challenging to set up and take down, TACO's Miami 2024 Innovation Award-winning Open Water Internal & Collapsible Carbon Fiber Outrigger Poles can be collapsed quickly and easily for transportation and storage. The three-piece design features a patent pending latching mechanism that provides a Twist & Lock connection between pole segments – enabling easy and secure setup when heading offshore.

New Skyway Sport Chair

The New TACO Skyway Sport Chair features welded stainless-steel framing to minimize deflection, and upgraded stainless-steel bolster and armrest brackets. Available with a solid teak armrest assembly and hinge.

New Grand Slam 300 Outrigger Mount

The new TACO Grand Slam 300 Outrigger Mount features a stainless-steel, ergonomic, single-hand crank handle with ball bearings. A symmetric design fits both port and starboard. Equipped to handle torque and whip for 1-1/2" diameter poles up to 22'. The arm lifts up to 49°.

New Grand Slam 860 Electric VHF Antenna Mount

The new TACO Grand Slam 860 Electric VHF Antenna Mount has a standard 1"-14 thread (male) shaft to accept standard VHF antennas up to 8'. No under-mount clearance is required. A stainless-steel Type-316L body with a polished finish has a threaded shaft for consistent lift and descent. The control module includes designation of On-Off-On control switches.

For more information about these new products and other TACO products, visit the TACO Marine booth 3-1629 at IBEX, <https://tacomarine.com> or call 1+305.652.8566.
