## **TACO Marine® Products To See At METSTRADE 2024 Stand 05.212**

The TACO Marine® stand 05.212 at METSTRADE 2024, November 19-21 in Amsterdam will feature a wide range of products including ShadeFin®, helm seating, specialty hardware and more.

### **ShadeFin®**

ShadeFin® easily attaches into rod holders, tops and gunnels to quickly and conveniently add an extra layer of sun protection virtually anywhere on deck.

Offered in black or white, ShadeFin's fabric provides a UPF 50+ rating of sun protection for multiple areas of the boat, including fore, aft and sides of tops and anywhere there is a rod holder. It pairs with either a fixed or adjustable rod holder mount, which insert into any standard rod holder, a hardtop bracket mount, the TACO Marine Grand Slam 170 Outrigger or 170-2 Center Rigger Mounts, or with a fixed or adjustable clamp-on mount for pipe or tube.

### **Made-in-the-USA Premium Helm Seating**

At METSTRADE, TACO will showcase four of its most popular helm chairs from its line of premier seating solutions – the Boca Sport Chair, the Open Water Sport Chair, Siesta Sport Chair and Capri Deluxe Helm Chair.

Every made-in-the-USA helm seat comes exclusively with Sunbrella® Horizon® marine vinyl – offering comfort and durability with highly UV-stable pigments for optimal color retention and strong protection against fading from sunlight. All four helm chairs feature adjustable armrests and rollback seat bolsters – enabling these premium helm offerings to double as leaning posts, which allow boaters to stand and steer at the helm.

TACO is also showcasing its new line of luxury Bucket Seats – the Anclote and Caladesi. Each bucket seat features a state-of-the-art integrated seat suspension, an adjustable bolster, and high-density, anti-bacterial foam padding for the ultimate onboard comfort and quality.

### **New Semi-Rigid SuproFlex Rub Rail Kits**

TACO is also debuting its new Semi-Rigid SuproFlex Rub Rail with a Flexible Vinyl Overlay Insert at METSTRADE, which is available in a convenient all-in-one kit in two sizes. Designed for universal use across a variety of boat types, the new Semi-Rigid SuproFlex features a semi-rigid vinyl back and a 95-durometer, firmer face. The Flexible Vinyl Overlay Insert provides added protection from impact and enhanced style. Additionally, this co-extruded vinyl rub rail features shock-absorbing channels for higher impact resistance and requires less heat during installation when compared to other semi-rigid or rigid profiles.

### **Command Ratchet Hinges & Sundeck Latches**

Also on display at METSTRADE is the popular Command Ratchet Hinge in two sizes – the perfect hinge for a variety of applications onboard. Constructed from high-grade stainless steel and brass, our Command Ratchet Hinge is ideal for sun pads, bolsters and lounge backrests.

TACO will also showcase its line of Sundeck Latches, available in white or black nylon and Type-316L stainless steel. This low profile concealed latch is perfect for an array of applications, including engine hatches, access panels, cabinet doors, dock boxes and folding seats. Its non-slip grip ensures a secure lift and comes with an adjustable anchoring stud.

### **A Call For Collaboration**

As TACO Marine looks to the future, the company is committed to strengthening existing partnerships and fostering new ones with boat builders and marine professionals. TACO invites all to visit them at METSTRADE in stand 05.212 to experience the latest innovations firsthand and explore how collaboration can bring even greater value to your products and company. For more information, visit <https://tacomarine.com>. International customers can also contact Brunger Export.
