## **Miami Preview: TACO Marine® Products, Booth MB7027, Miami Beach Convention Center**

The TACO Marine® booth MB7027 at the 2025 Discover Boating™ Miami International Boat Show® next week will showcase a broad range of products, including Open Water Internal & Collapsible Carbon Fiber Outrigger Poles, Grand Slam 300 Outrigger Mount, Grand Slam 860 Electric VHF Antenna Mount, Grand Slam 960 Electric Masthead Anchor Light and the new Breeze Way Sport Chair.

### **Award-Winning Open Water Internal & Collapsible Carbon Fiber Outrigger Poles**

Unlike other internally rigged poles on the market that are fixed or challenging to set up and take down, TACO's Open Water Internal & Collapsible Carbon Fiber Outrigger Poles (winner of a 2024 Miami Innovation Award) can be collapsed quickly and easily for transportation and storage. The three-piece design features a patent pending latching mechanism that provides a Twist & Lock connection between pole segments – enabling easy and secure setup when heading offshore.

### **Grand Slam 300 Outrigger Mount**

The TACO Grand Slam 300 Outrigger Mount features a stainless-steel, ergonomic, single-hand crank handle with ball bearings. A symmetric design fits both port and starboard. Equipped to handle torque and whip for 1-1/2" diameter poles up to 22'. The arm lifts up to 49°.

#### **Grand Slam 860 Electric VHF Antenna Mount**

The TACO Grand Slam 860 Electric VHF Antenna Mount has a standard 1"-14 thread (male) shaft to accept standard VHF antennas up to 8'. No under-mount clearance is required. A stainless-steel Type-316L body with a polished finish has a threaded shaft for consistent lift and descent. The control module includes designation of On-Off-On control switches.

#### **Grand Slam 960 Electric Masthead Anchor Light**

The TACO Grand Slam 960 Electric Masthead Anchor Light offers enhanced safety and durability, with a stainless-steel body and Type-316L stainless-steel breakaway pin for superior weather

resistance. The GS-960 can be easily adjusted from the deck with a push-button operation, thanks to the auto-rotating stop feature and manual stop option. Suitable for powered vessels up to 39' (12 meters), the GS-960 meets the USCG's 3 nautical mile visibility requirement.

### **New Breeze Way Sport Helm Chair**

The new Breeze Way Sport Helm is a cost-effective, premier helm seat that delivers on superior comfort, quality and style for a variety of boat types, including pontoons, center consoles, dual consoles and deck boats. Built with comfort in mind, the Breeze Way is available with either static or reclining configurations. It features back-mounted, fully upholstered and adjustable armrests, a padded headrest for extra support and stylish, quilted accent paneling for enhanced comfort on the water.
