Spring Launch Tip: Tune Up Your Outriggers

Spring is a good time to get your outriggers ready for the season and TACO Marine® offers a tune-up service program for owners of TACO standard aluminum tele-outriggers or center rigger poles.

The service can be performed on TACO poles within or outside warranty, in good working order, and will professionally restore the poles to like-new condition.

The service not only extends the life of TACO outrigger poles, but it also extends the warranty. For poles still covered under the original 3-year warranty, the tune up program resets the

warranty to 3 years from the time of service. If the poles are out of warranty, this service provides an additional 1-year, limited warranty from the time of service.

Currently, the service is only available to TACO customers within the Continental United States. For complete information including costs, terms and conditions, visit <https://tacomarine.com/sport-fishing-store-outrigger-poles-ot-service>

TACO Marine®, a division of TACO Metals®, LLC, designs, manufactures, and distributes a wide range of products, including rub rail, sport fishing and outrigger systems, boat shade, canvas and tower components, helm chairs and pedestals, and specialty hardware. TACO Metals, LLC is a subsidiary of Patrick Industries (NASDAQ: PATK), a leading component solutions provider for the RV, marine and manufactured housing industries.
